    global textArea
    textArea.event_generate("<<Paste>>")
def help() :
    messagebox.showinfo("Notepad","Ini Adalah Notepad Menggunakan Python Versi
3.9")

createWidgets()

root.mainloop()

```

## Output

The image shows a Windows command prompt window with the title bar "C:\WINDOWS\system32\cmd.exe - python notepad.py". The command prompt displays the command `D:\Kuliah\FGA\ke-19\Gui>python notepad.py`. A Notepad window titled "test.txt - Notepad" is open, showing the text "hehehe" on the first line and "ini coba" on the second line. The Notepad window has a menu bar with "File", "Edit", and "Help".

```
C:\WINDOWS\system32\cmd.exe - python notepad.py
D:\Kuliah\FGA\ke-19\Gui>python notepad.py

test.txt - Notepad
File Edit Help
hehehe
ini coba
```
